

intherma
INDUSTRIAL COMBUSTION SOLUTIONS

FIRE
IS OUR PASSION

WHO WE ARE

Intherma is a world-wide supplier of products and services for incineration technology.

Since 1956, Intherma develops and manufactures customized industrial burners for gaseous and/or liquid fuels.

We also engineer and procure complete incineration units in various fields of application.

Incineration is our core know-how.

WHERE WE ARE

Intherma is located in Kronberg, just 20 km from the major German business hub Frankfurt/Main.

We manufacture our equipment in our own workshop in nearby Rockenberg.

Customers and their projects all around the world profit from our know-how and experience as well as our network of reliable long-time suppliers.

OUR PRODUCT PORTFOLIO

Industrial Burners

customized solutions
capacities from 100 kW to 120 MW
single or multi-fuel
gaseous and/or liquid fuels
forced draft burners

Lances and Nozzles

continuous development of new and better lances and nozzles for gaseous, liquid and pasty media

Control & Instrumentation Skids

pre-mounted, pre-wired and pre-tested skids for quick and easy installation on site

Burner Management Systems

PLC programming for single burners or complete incineration units

Incineration Units

design, engineering and procurement
commissioning assistance
operator training

Services

consulting
engineering services
training
after sales service
spare parts
maintenance

FIELDS OF APPLICATION

Chemical/Petrochemical Industry

Claus Plants
Drying Plants (direct/indirect)
Flue Gas Cleaning
Tank Ship Loading
Thermal Post-Combustion
Thermal Waste Water Treatment

Furnaces

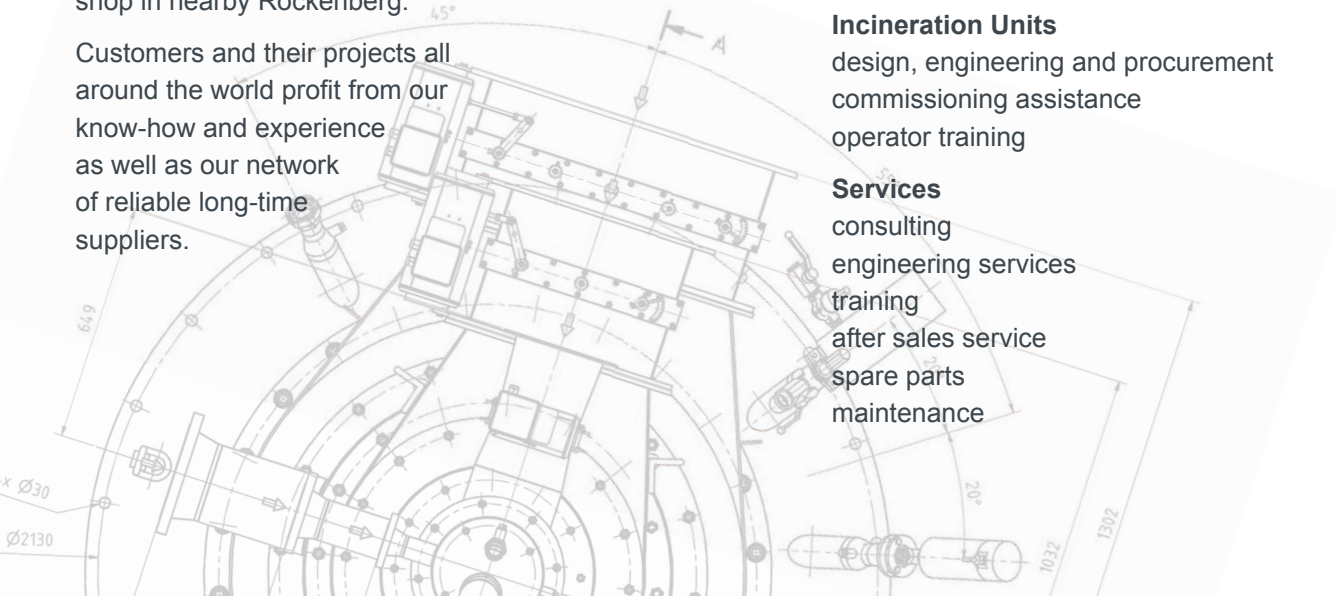

Fluidized Bed Incinerators
Melting Furnaces
Perlite Inflating Furnaces
Retort Furnaces
Roasting Furnaces
Rotary Kilns
Tunnel Furnaces

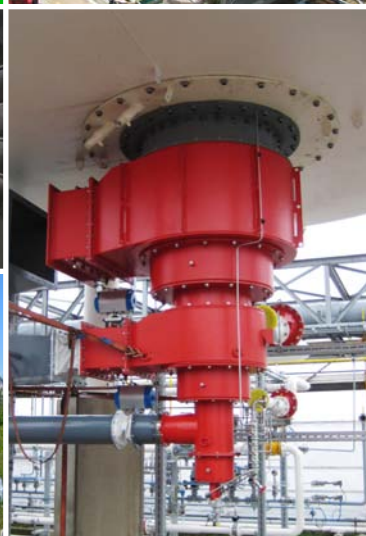

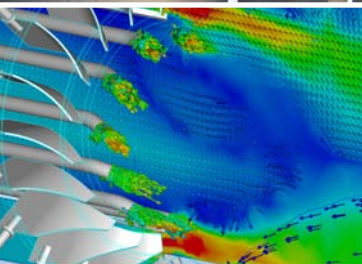

Heat Recovery

Hot Gas Generation Units
Power Generation
Steam Boilers
Thermal Fluid Systems
Waste Heat Boilers

Waste Disposal

B&C Weapons Disposal Units
Hazardous Waste Incineration Units
Rotary Kilns
Thermal Post-Combustion
Thermal Waste Water Treatment
Waste Heat Boilers

DO YOU HAVE ANY QUESTIONS?

Then please let us know!

Our engineers develop individual solutions meeting all your requirements.

We look forward to receiving your inquiry.
